EDUCATION

Bennett University

B.Tech in Computer Science & Engineering (Artificial Intelligence)

Greater Noida, India

Aug 2023 – May 2027

- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Machine Learning, Computer Networks, DBMS, OOP

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, Java, PHP, SQL, HTML5, CSS3

Frontend: React, React Native, Next.js, Tailwind CSS, React Three Fiber, GSAP

Backend & Databases: Node.js, Express, MongoDB, PostgreSQL, MySQL, REST APIs, Prisma ORM, Appwrite

Tools: Git, GitHub, Figma, Stripe, Clerk Auth, Cloudinary, Vercel, Netlify, Vite | **AI/ML:** Machine Learning, Deep Learning, NLP, Computer Vision

EXPERIENCE

UI/UX Design Intern

ZONOMO (Startup)

May 2025 – July 2025

Greater Noida, India

- Designed mobile-first wireframes and UI flows in Figma improving navigation clarity across 4+ core features; conducted 3+ iteration cycles reducing design handoff time through systematic UI best practices
- Collaborated with product and engineering teams to align design deliverables with development timelines, ensuring seamless integration of user-centered design principles

In-Plant Trainee – Web Development

Heavy Vehicles Factory (HVF), Ministry of Defence, Govt. of India

June 2025

Chennai, India

- Built HVF e-Leave, a full-stack intranet app using React, TypeScript, PHP, and MySQL, eliminating paper-based leave tracking and cutting processing time from days to hours
- Engineered role-based authentication for Admin/Employee portals with automated validation for 6+ leave types; architected normalized MySQL schema with 99%+ uptime during demonstration

Team Co-Head, Multimedia & Design

CodeChef BU, Bennett University

Sep 2024 – June 2025

Greater Noida, India

- Led 8+ designers to deliver visual content for 15+ technical events; increased student engagement by 30% through strategic social media campaigns and 50+ design assets
- Mentored junior designers in Figma and Canva workflows, establishing design guidelines that improved team productivity and brand consistency

PROJECTS

QuickShow – Movie Theater Booking Platform | React, Node.js, Express, MongoDB, Stripe, Clerk

Live

- Built production-ready full-stack movie booking platform with real-time seat selection, secure Stripe payments, and sub-2-second load times via code splitting and lazy loading
- Implemented admin dashboard for 20+ movies and 100+ showtimes with Clerk auth, Cloudinary storage, and Inngest workflows; improved API response times by 45% through query optimization

HVF e-Leave Portal – React Edition | React, TypeScript, Tailwind CSS, Node.js, Vite

Live

- Developed enterprise-grade leave management system with multi-tier approval workflows, real-time status tracking, and role-based access control for defence sector deployment
- Built responsive React 19 UI with TypeScript and Tailwind CSS; designed RESTful Node.js APIs with full CRUD, validation, and error handling for cross-device reliability

ADDITIONAL LEADERSHIP & ACTIVITIES

Head – Media & Content

Dean Career Cloud, School of CSET, Bennett University

Feb 2026 – Present

Greater Noida, India

- Leading content strategy and multimedia production (photography, videography, digital content) for SCSET's career development initiative, managing end-to-end media workflows for events and workshops

Multimedia Specialist

ISAC, Bennett University

Sep 2025 – Present

Greater Noida, India

- Providing professional videography and photography for 20+ university events; managing post-production and producing visual content for social media and university branding
