EDUCATION

Bennett University

Greater Noida, India

Bachelor of Technology in Computer Science & Engineering (Artificial Intelligence)

Aug 2023 – May 2027

- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Machine Learning, Computer Networks, DBMS, OOP, Software Engineering

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, Java, PHP, SQL, HTML5, CSS3, LaTeX

Frontend: React, React Native, Next.js, Tailwind CSS, React Three Fiber, GSAP, Responsive Design

Backend & Databases: Node.js, Express, MongoDB, PostgreSQL, MySQL, REST APIs, Prisma ORM, Appwrite

Tools & Technologies: Git, GitHub, Figma, Stripe, Clerk Auth, Cloudinary, Vercel, Netlify, XAMPP, Vite

AI/ML: Machine Learning, Deep Learning, NLP, Computer Vision, Neural Networks, Python (NumPy, Pandas)

EXPERIENCE

In-Plant Trainee – Web Development

June 2025

Heavy Vehicles Factory (HVF), Ministry of Defence, Govt. of India

Chennai, India

- Developed HVF e-Leave, a full-stack Leave Management System using React, PHP, MySQL, and JavaScript
- Built secure role-based authentication with session management for Admin and Employee portals
- Designed responsive frontend interfaces with React and Tailwind CSS, deployed using XAMPP
- Applied business logic for various leave types (CL, EL, HPL, ML) and structured database via phpMyAdmin
- Collaborated with cross-functional team and authored comprehensive technical report using LaTeX

UI/UX Design Intern

May 2025 – July 2025

ZONOMO

Greater Noida, India

- Designed mobile-first wireframes and user-centered UI flows for core app features using Figma
- Conducted design iterations based on cross-functional team feedback, improving usability and consistency
- Implemented UI best practices and ensured component consistency across the mobile application
- Strengthened skills in wireframing, UX flow optimization, and collaborative design processes

Team Co-Head, Multimedia & Design

Sep 2024 – June 2025

CodeChef BU, Bennett University

Greater Noida, India

- Led team of designers in creating visual content and promotional materials for technical events
- Managed project planning and execution, collaborating with leadership to enhance event outreach
- Designed social media graphics, posters, and event banners, increasing engagement by 30%

PROJECTS

QuickShow – Movie Theater Booking Platform | React, Node.js, Express, MongoDB, Stripe, Clerk

Live

- Built full-stack booking platform with real-time seat reservations and secure payment processing via Stripe
- Integrated Clerk for authentication, Cloudinary for media storage, and Nodemailer for email notifications
- Developed admin dashboard for managing movies, shows, and analytics with automated workflows using Inngest

HVF e-Leave Portal | React, TypeScript, Tailwind CSS, Node.js, Vite

Live

- Created comprehensive leave management system with approval workflows and real-time status tracking
- Designed responsive UI with React and Tailwind CSS for seamless cross-device accessibility

Velvet Pour – Interactive Cocktail Website | React, GSAP, Tailwind CSS, Vite

Live

- Developed cinematic website with scroll-driven animations using GSAP ScrollTrigger and SplitText reveals
- Implemented custom scroll-synced video carousel and parallax effects for immersive user experience

LEADERSHIP & CERTIFICATIONS

Leadership: Internshala Student Partner (Aug–Oct 2024), Multimedia Team Member at Zenart Club

Certifications: Neural Networks & Deep Learning, Machine Learning Classification, Operating Systems (Coursera), Object-Oriented Data Structures in C++
